(including the Addendum "fighting corruption")

- The Group Code of Conduct has been updated in December 2021, especially its section on Fighting corruption that provides definitions as well as examples to illustrate prohibited behaviors.
- The Code of Conduct reminds the importance of the Conduct rules and provides guidance for the staff on how to rely on the Group values and their personal judgement to make the right decision. It also emphasizes on the possibility of speaking up.
- Since 2016, the Code has been implemented in all the business lines through dedicated frameworks, under the coordination of Compliance, in order to ensure the integration of Conduct into operational processes, controls, and more generally day-to-day activity, as well as to closely monitor the Group transversal priorities. The governance around Conduct has been significantly reinforced at Group, operating divisions and business lines level over the past few years.

 - Full payment of this 50% portion only if an over-performance of at least 10% is observed
 - Maximum: cap at the initial award

Principles of Variable Remuneration of "Group MRT*"

- These principles are established and proposed by Group Human Resources in cooperation with the relevant business units, presented for approval to the "Compliance, Risks, Finance" Group Committee, then decided upon by senior management after review by the Compensation Committee and approval by the Board of Directors. Every year,
 - procedures are audited and checked *a posteriori* by the Inspectorate General, whose report is submitted to the Compensation Committee and addressed to the Regulator;
 - the ECB reviews the principles and the implementation of the Group's compensation policy
- Since 2014, the Shareholders' Meeting is presented with some provisions on the MRT remuneration package
- The overall variable remuneration of market professionals takes into account, for each business unit concerned, all the components of profits and risk:
 - direct revenues, and direct and indirect costs allocated to the business unit;
 - internal cost of refinancing (including the real cost of liquidity);
 - risk provisioning;
 - cost of capital allocated to the entity
- No guaranteed bonus, except in a recruitment context
 - limited to one year, and paid in the same conditions as the "non-guaranteed" remuneration (in particular with a deferred part, subject to indexation and eventually performance criteria)
- No guarantee of compensation for premature termination
- Ban on hedging and insurance linked to the fluctuation of the share or the profitability of the businesses
