From 30 September 2018, the capitalization table will be presented using the prudential scope of consolidation. The Group's 30 June 2018 capitalization table is presented here using both scopes of consolidation for comparison. As stated in Section 5.2 of the Third Update to the BNPP 2017 Registration Document (in English), the material differences between the prudential scope of consolidation and the accounting scope of consolidation are as follows:</p> <ul style="list-style-type: none"> <li>- insurance companies (primarily BNP Paribas Cardif and its subsidiaries) that are fully consolidated under the accounting scope of consolidation are accounted for using the equity method under the prudential scope of consolidation; and</li> <li>- jointly controlled entities (such as the UCI Group entities and Bpost banque) are accounted for using the equity method in the accounting scope of consolidation and using the proportional consolidation method under the prudential scope of consolidation.</li> </ul> <p>(2) As of 30 September 2018, EUR 205 million of subordinated debt is eligible as Tier 1 capital. EUR 205 million of subordinated debt was eligible as Tier 1 capital as of 30 June 2018.</p> <p>(3) The variation between the prudential scope of consolidation and the accounting scope of consolidation in respect of senior preferred debt is mainly attributable to debt issuances of BNPP SA subscribed for by insurance entities, which are not included in the prudential scope of consolidation.</p> <p>(4) The variation between the prudential scope of consolidation and the accounting scope of consolidation in respect of undated subordinated notes is attributable to debt issuances made by the Group's insurance subsidiaries, which are not included under the prudential scope of consolidation, since insurance entities are accounted for using the equity method."</p>
