### Recent Developments

On July 28, 2023, the Issuer announced that the European Banking Authority (EBA) had published the results of the EU-wide Stress Test carried out jointly with the European Central Bank (ECB). This exercise covered the 70 largest banks in the European Union (versus 50 in 2021). The exercise is conducted every two years, with the exception of the 2020 exercise stopped due to the health crisis. The stress test results demonstrate the Issuer’s capacity to withstand a scenario of major stress based on extremely severe assumptions of economic and market conditions evolutions. The results of this thorough exercise conducted by the EBA and the ECB confirm the Group’s balance sheet strength and the quality of its risk policy.

On November 27, 2023, the Issuer announced that it had received the notification by the *Autorité de Contrôle Prudentiel et de Résolution* (ACPR), dated November 27, 2023, that the Group had been designated on the 2023 list of Global Systemically Important Banks (G-SIBs) in the bucket 2 corresponding to its score based on end-2022 data. Consequently, the requirement of the G-SIB buffer applicable for the group remains at 1.5% of the total risk-weighted assets beginning January 1, 2024, unchanged compared to the level applicable in 2023. See “*Government Supervision and Regulation of Credit Institutions in France*” in the Prospectus for further details.

On December 1, 2023, the Issuer announced that it had received the notification by the European Central Bank of the outcome of the 2023 Supervisory Review and Evaluation Process (SREP), which states capital requirements and leverage ratio on a consolidated basis in force for the Group. The common equity tier 1 (CET1) requirement that the Group has to respect as from January 1, 2024 on a consolidated basis is 10.02% (excluding the Pillar 2 guidance). It includes 1.50% for the G-SIB buffer, 2.50% for the conservation buffer, 1.11% for the Pillar 2 requirements<sup>1</sup> and 0.41% of countercyclical buffer<sup>2</sup>. The requirement for the tier 1 capital is 11.81% (of which 1.40% for the Pillar 2 requirements). The requirement for the total capital is 14.18% (of which 1.77% for the Pillar 2 requirements). The leverage ratio

<sup>1</sup> CET1 requirement related to Pillar 2 requirements now includes 100% of the add-on related to non-performing exposures on aged loans granted before April 26, 2019.

<sup>2</sup> Computation based on RWAs as at September 30, 2023, excluding the 0.18% impact of the increase in France’s countercyclical buffer as from January 2, 2024.

requirement that the Group has to respect as from January 1, 2024 on a consolidated basis is 3.85% (excluding Pillar 2 guidance). See “*Government Supervision and Regulation of Credit Institutions in France*” in the Prospectus for further details.

On December 21, 2023, the Issuer announced that it would no longer include the following subordinated instruments (the “Instruments”) in its Tier 2 regulatory capital and, as such, would no longer consider them in the computation of its regulatory ratios as of December 31, 2023:

- Participating Notes (“*Titres Participatifs*”):
  - €27 million issued on July 30, 1984 (ISIN: FR0000047664)\*

  - €4.4 million issued on January 28, 1985 (ISIN: FR0000047839)\*
  - €2 million issued on May 20, 1985 (ISIN: FR0000047797)\*
- Undated Subordinated Floating Rate Notes:
  - €254 million issued on October 7, 1985 (ISIN: FR0000572646)\*
  - \$274 million issued on September 22, 1986 (ISIN: FR0008131403)\*

As of June 30, 2023, the amount of the Instruments recognized in the Tier 2 regulatory capital of the Issuer was approximately €726 million.

In view of the above, the Issuer announced its intention to call the \$274 million Undated Subordinated Floating Rate Notes issued on September 22, 1986 (ISIN: FR0008131403)\* on the next call date, subject to the prior permission of the ECB.
