## CSR 2017 & 2018 HIGHLIGHTS

The bank for a changing world

### Tone at the top: CSR is at the heart of BNP Paribas' DNA

#### BNP Paribas created a Company Engagement department in September 2017, which lays on 2 ambitions:

- Strengthening its excellence in all topics related to CSR
- Responding to major issues facing society

Coordination between the Board and the Metiers to develop commercial offers linked to the above transversal matters of society, in line with the United Nations Sustainable Development Goals (SDGs)

#### Company Engagement ongoing topics gather internal and external initiatives:

- Creation of (i) a directory of products & services with positive impact and (ii) training programs both for all staff and for experts populations (e.g. LfC and LfT)
- Implementation of a strategic watch and launch of an Engagement barometer

### 2017-2018 highlights

▶ 155 billion euros as of end 2017 vs. 135 as of end 2016, in financings to support energy transition and sectors considered as directly contributing to SDGs\*

Support to social companies, microfinance and associations for 5.1 billion euros as of end 2017

- 6 billion USD of green bonds for which BNPP was joint lead manager for its clients in 2017 (+116% vs. 2016)
- Issuance of BNP Paribas second green bond for 500 million euros in April 2018
- Carbon neutrality as of end 2017 for BNPP operational scope

End of financing of companies & infrastructures whose main activities are linked to shale gas and/or shale oil and/or oil sands, as well as projects dedicated to the exploration and production of oil and gas in the Artic region

End of financing and investment activities for tobacco industry companies

\* Including sustainable bonds' placement and CSR funds

### The CSR policy: a major component of the Group's Engagement strategy

### Strengthening of Group CSR through the creation of the Company Engagement Department

As of September 2017, CSR is part of the new Company Engagement Department...

- Headed by an Executive Committee member fully dedicated to Company Engagement
- Working with all BNP Paribas' business lines, and more specifically: Group CSR, Group Diversity and Group Communication

## CSR is an integral part of our culture and strategy

- Top senior managers have CSR criteria integrated into their deferred variable compensation
- The CSR policy remains unchanged, structured around 4 pillars and 12 commitments

|                                 | A BANK CO                          | OMMITTED                       |                                    |  |  |  |  |  |  |

#### Consolidation of CSR policies' governance

- Decisions made by the Group Executive Committee and GSCC (Group Supervision and Control Committee, chaired by the Group's CEO)
- Reinforcement of the operational application of these decisions, notably through the Executive Committee, CSR committee Risk and Compliance committees...

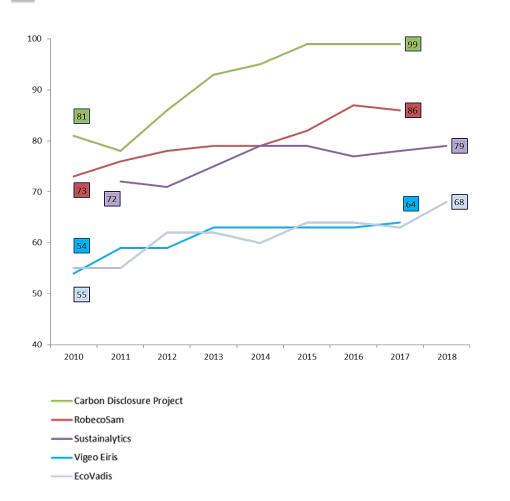

# Report on the achievement of the 2016-2018 steering objectives at end 2017: 10 out of 13 have been achieved or are in line with the objectives

|      |                | Indicator  | 2015 baseline                     | 2016 value     | 2017 value     | 2018 Economic   |
|------|----------------|--|-----------------------------------|----------------|----------------|---|

# A good CSR driver more and more recognised by extra-financial agencies and independent experts

### A high positioning in constant increase in the extra-financial indexes

BNP Paribas has been named as the "World's Best Bank for Sustainable Finance" for 2018, by Euromoney, a leading publication in the international finance field

BNP Paribas is identified as the European leader for climatic risk management for ShareAction (British NGO promoting responsible investment)

BNP Paribas appears for the 4th year in the demanding ranking of the « Global 100 Most Sustainable Corporations »

# 1 HIGHLIGHTS

### New regulations and initiatives for the energy transition

- BNP Paribas already complies with the reporting requirements of article 173 of the French Energy
   Transition for Green Growth Act
- ✓ BNP Paribas Cardif and BNP Paribas Asset Management report on the carbon impact of their funds, in line with the article 173 of the French Energy Transition law
- BNP Paribas is preparing to comply with the European Directive on Non-Financial Reporting as transposed into the French law
- ✓ BNP Paribas is compliant with the article 225 of the Grenelle II Act in France, and the Group already consolidates its data in its annual Registration Document (with a dedicated section on ESG risk management);
- ✓ An update of its Registration Document is planned in line with this new regulation by 2019 for 2018 exercise (business plan integration, materiality analysis...)
- European Commission's Action Plan on Financing Sustainable Growth
- ✓ 2018: the EU Action Plan is released in accordance with the HLEG's recommendations, and 10 actions are defined in order to:
- Improve the contribution of finance to sustainable and inclusive growth
- Strengthen financial stability by incorporating ESG factors into decision making
- Creation of a technical expert group of 30 people, representing a wide range of financial, economic as well as academic and NGOs, in which BNP Paribas participates with Helena Vines Fiestas (head of Sustainability Research at BNPP AM) as a representative
- ✓ A BNP Paribas position paper on the Action Plan to be delivered.

# Preparation of the Group's Vigilance Plan in compliance with French regulations

#### 2017 Report:

- Reflects the existing setup within the Group as regards the management of CSR risks
- 1st year of reporting: commitment of an approach of continuous improvement

#### 2018 Report:

 Will require to clarify/formalise more the plan and to report on its implementation

#### **Current situation:**

The systems in place to identify and manage risks (i.e. on human rights, health/safety and the environment) enable BNP Paribas to meet the law's requirements for 2017

#### Outlook:

An action plan has been implemented in 2018 to complete the existing systems

# Pursuing our active contribution to the achievement of the UN Sustainable Development Goals

- ▶ 155 billion euros as of end 2017, vs. 135 as of end 2016, in financings to support energy transition and sectors considered as directly contributing to SDGs\*
- The target is to reach 185 billion euros by 2020, with an increase of 10 billion euros in average between 2018 and 2020

The bank for a changing world

**5.1 Bn**€: amount **as of 2017** of BNP Paribas' support to associations and social enterprises (investments for third parties, financing, sponsorship and volunteering) contributing to the SDG #10 "Reduced inequalities"

The target is to reach 6 Bn€ by 2020

165,000 hours as of end 2017 of skill-based volunteering hours dedicated by BNP Paribas' employees

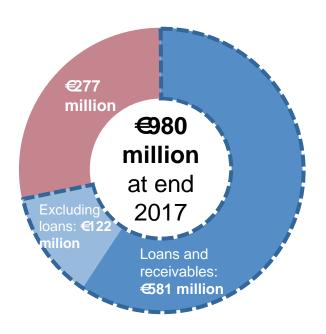

The target is to reach 1 million hours by 2020

### A leadership position in support for social entrepreneurship

#### Microfinance:

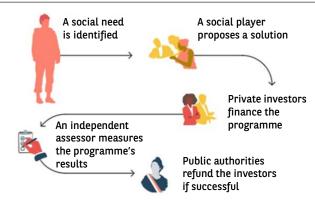

Support for 35 Microfinance Institutions in 17 countries for €277 million at end 2017

#### Social entrepreneurship:

Support for almost 1,100 social companies in 7 countries for €718 million at end 2017, of which €581 million in loans

Contrats à Impact Social (CIS) or Social Impact Bonds (SIB):

At end 2017, 7 out of 13 Social Impact Bonds labelled by the French State were structured by BNP Paribas.

#### 5 are to be signed in 2018:

- > Article 1 (fight against school dropout)
- Fondation d'Auteuil (child protection)
- La Cravate Solidaire (coaching for job interviews)
- Solidarités Nouvelles face au Chômage (social inclusion)
- Wimoov (travel better, improve employability)

### In addition, 1 SIB "Pay for Success" structured in the US:

State of Connecticut (child protection by helping ensuring family stability)

And another in favour of veterans which is currently under progress.

# ACTFOR IMPACT

Label created by BNP Paribas for social entrepreneurs

- Objectives: to provide specific support, accelerate projects and provide access to key partners
- Participation in the new French Impact for the Social and Solidarity Economy (ESS) project announced by the French Government in January 2018

<sup>\*</sup> Post Traumatic Stress Disorder

# Implementation of a new sector policy at the end of 2017 to manage non-conventional Oil & Gas activities

#### Overall background

What

- ➤ The **pipelines** transporting non-conventional oil and gas and the **terminals for exporting LNG** (liquefied natural gas) fed by non-conventional gas
- The exploration and production of oil and gas in the Arctic region

- Since the Paris Agreement, the world is committed to move towards a low-carbon world, and BNP Paribas intends to support this movement
- Difficult access to non-conventional oil and gas makes their production and use more likely to generate negative impacts on the environment
- Numerous infrastructure projects (LNG pipelines and terminals) stimulate demand and should intensify production
- BNP Paribas' objective is both to manage this sector and support its customers in their own energy transition approach

#### Sector policy

December 2017: Entry into force of the Sector Policy on non-conventional oil and gas

- <u>End</u> of relations with <u>producers</u> whose main activities are the exploration or production of shale gas and/or shale oil and/or oil sands
- End of relations with customers whose main activity is trading in shale gas and/or shale oil and/or oil sands
- End of financing for projects primarily dedicated to the land transport of shale gas and/or shale oil and/or oil sands, and LNG terminals dedicated to the export of shale gas
- The policy is worldwide and affects all BNP Paribas Group employees, although the immediate impact will be felt more strongly in North America

# Pilot testing the impact of an internal carbon price on the customers of our loan portfolio

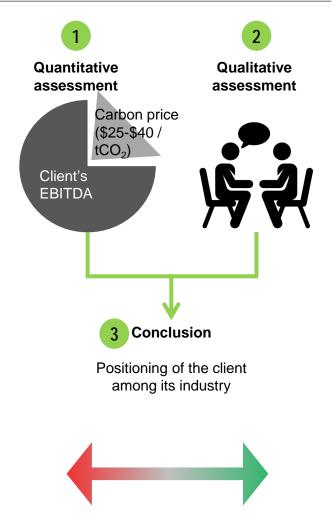

#### 2018: Pilot Phase

- In 2015, BNP Paribas committed to progressively integrate the use of an internal carbon price in its financing decisions.
- After having developed the tool in 2017 for 8 industries\* identified as highly sensitive to carbon risks, a pilot phase has been launched in 2018. The goal is to test the methodology on the 3 geographies (EMEA, APAC, Americas) and for all the industries, on a selection of clients, and to organize trainings throughout the Group.
- Full roll-out is scheduled for 2019.

#### **Details of the Carbon Risks Analysis**

At the occasion of annual reviews and new entries for both corporate and projects, analysts will have to:

- Make a quantitative assessment by running sensitivities on client's EBITDA by using our shadow carbon price scenario.
- 2. Complete this analysis by a qualitative analysis based on the information collected by the RM or SB, about the strategy of the client regarding its GHG emissions.
- Conclude this analysis by proposing the positioning of the client among its industry (most sensitive up to best-in-class).

\*Power Generation, Thermal Coal, Oil & Gas (upstream & downstream), Transportation (Automotive, Airlines, Trucking and Shipping), Agrifood (Processed & Packaged Food, Grains & Oilseed, Dairy, Meat), Aluminum Smelting, Steel, Cement

### Financing proactively the "green" economy

#### Renewable energies

- BNPP allocated €12.3 billion to renewable energies at end 2017
- Increase of +32% vs. 2016 (€9.3 billion)
- In line with the 2020 target of €15 billion, which will more than double the €6.9 billion of 2014

#### Developing sustainable products

- CIB's sustainable finance
- 30.3 Bn€ of sustainable bonds for which BNPP was joint lead manager for its clients between 2012 and June 2018, mainly "green"\*\*
- > 2018 first half amounts more than 20 Bn€
- BNP Paribas is in the world's top 3 sustainable bonds issuers

#### Pointing savings towards Energy Transition

- BNPP Asset Management
- ▶ BNP Paribas Green Business (launched in 2018): 10% will be invested in a fund that directly invest in SME in the Energy Transition and the other 90% will be in companies fighting climate change

### Energy efficiency for individual customers

- Personal Finance : 2Bn€ of outstanding
- ➤ BNPP Fortis proposes a better rate (1.95%) for renovation impacting energy consumption: market share x2

#### Carbon offsetting

- BP2S ClimateSeed to be launched mid 2018
- Facilitation of carbon emissions offsetting both for corporates and asset managers

#### Supporting innovation

- ➤ 100 M€ to be invested by 2020 in innovative startups active in the energy transition, with 20m€ as of end 2017. For example:
  - Heliatek (solar thin films)
  - Sunna Design (off grid solar street light)
  - STEM (behind-the-meter storage)
  - <u>Demeter Venture</u> (seed fund for start-ups in the field of energy transition)

<sup>\*</sup> European Emission Trading Scheme (2 Bn allowances traded, Governance auctions) \*\* Renewable Energy, Energy Efficiency or Mobility

# BNP Paribas has been carbon-neutral for its operational scope since the end of 2017

#### The implementation of carbon neutrality for the Group is based on 3 focuses:

- 1. **25% reduction in the carbon footprint of employees** between 2012 and 2020 (already -21% in 2017)
- 2. Purchase of low-carbon electricity wherever possible
- 3. Compensation of residual emissions via reduction programmes with partners:
  - Wildlife Works, which preserves and replants forests in Kenya and helps local people to avoid new forest destruction
  - Good Planet, which provides gas bio-composters in India, thus avoiding CO2 emissions and preserving forests, whilst relieving women of the job of collecting wood

### **Biodiversity**

#### <u>2020</u>: a major deadline for biodiversity

- ✓ 2011-2020: United Nations' Decade on Biodiversity
- ✓ 2020: 15<sup>th</sup> meeting of the **COP on Biodiversity** in Beijing is expected to update the UN Convention on Biological Diversity in a "New Deal for Nature" which will prepare the post-2020 biodiversity framework
- ✓ IUCN (International Union for Conservation of Nature) will hold its World Conservation Congress in France in 2020
- ✓ Looking forward 2020 with the "Act for Nature" initiative: scientists, associations for the protection of Nature, governments and companies are mobilizing the world actors for biodiversity
- ✓ "Entreprises pour l'Environnement" (EpE) is a part of the Act for Nature initiative and J-L. Bonnafé will
  be the president since 2019

#### Biodiversity: a raising topic for BNP Paribas

- ✓ BNP Paribas is already a member of the "Zero Net deforestation" initiative and 4 policies provide a framework to sectors related to forest protection
- ✓ More generally, the whole topic of biodiversity is being looked at, including between others: protection of Nature, forests, oceans

# BNP Paribas ends its financing and investment activities for tobacco companies

#### BNP Paribas' previous position

#### At the end of 2016, a restrictive position

- Dialogue with customers to encourage good practices and end of commercial relations if the practices remained unacceptable
- Limited commitments: no increase in exposure, short term commitments favoured, restrictions in countries known for trafficking

#### 2016-2017, global disengagement movement

- Pension funds (CalPERS, PGB, Asgard, Telstra, BT), banks (ABN Amro, ANZ, BNZ, Westpac), sovereign funds (Retirement Reserve Fund, Irish Sovereign IF), fund managers (AMP Capital, Actiam), insurers and reinsurers (AXA, SCOR) massively disengaged from the tobacco industry
- The rating agency, Vigeo Eiris, downgraded all tobacco companies

In September 2017, the United Nations Global Compact excluded tobacco companies from membership

#### The Group's new position

On November 24<sup>th</sup>, 2017, the Group announced that it was ending its financing and investment activities for tobacco industry companies

On 29 November 2017, Jean-Laurent Bonnafé presented the Group's decision at the Business and Human Rights Forum of the United Nations

Human Rights Forum of the United Nations

- Tobacco is added to the Exclusion Lists of certain goods and activities of BNP Paribas;
- ➤ The decision impacts all commercial relations held by the Group with companies in the tobacco industry, as well as the investments made on behalf of third parties.

On September 26<sup>th</sup>, 2018, on the sidelines of the 2018 UN General Assembly, the Tobacco Free Finance Pledge will be launched by the NGO Tobacco Free Portfolio and several UN organisations (PRI, PSI and UNEP-FI) to represent a new collaboration between the health sector, governments, civil society and global finance actors, among which BNP Paribas. The objective is to accelerate progress towards a tobacco-free future, in line with the UN SDGs, in particular SDG n°3 Health & Wellbeing and SDG n°17 Partnerships.

# 2 APPENDIX

# BNP Paribas has implemented partnerships with UNEF, the Bill & Melinda Gates Foundation and the Solar Impulse Foundation

Collaboration between BNP Paribas and the United Nations Environment Programme (UNEP) to promote sustainable growth in emerging countries

- Aim of reaching \$10 billion in investments by 2025 in developing countries
- Support for project owners with, amongst others, access to renewable energies, access to water, responsible agriculture

Partnership between the BNP Paribas Foundation and the Bill & Melinda Gates Foundation to support climate research in Africa

- Creation of a programme endowed with US\$15 million over 5 years, the One Planet Fellowship, financed equally by the 2 foundations
- Aim of supporting European and African researchers in order to help Africa adapt to climate change
- Aim of federating the scientific communities working on this issue

Partnership between BNP Paribas Switzerland and Bertrand Piccard's Solar Impulse Foundation

- Creation of the World Alliance for Efficient Solutions, which aims to promote 1,000 profitable and environmentally-friendly solutions during the COP 24
- Aim of demonstrating that viable and operational solutions exist, and thus encouraging political decision-makers to develop and implement them
