A global thermal coal exit timeframe

BNP Paribas is the **only bank in the world** to have announced (i) a timeframe for complete thermal coal exit, (ii) have ceased financing unconventional oil and gas, and (iii) to be a leader in renewable energies at the same time.

- **The biggest bank in the world** to have announced a complete exit from the use of coal in electricity production
- **A residual share of coal (2.4%)** approaching 0% in the field of energy extraction
- **A reinforced ambition** in terms of the financing of renewable energies
  - Objective: EUR 18 billion in 2021

*Data based upon 80% of BNP Paribas portfolio’s coal capacity at the end of 2019 (data used for the calculation of the Group electric mix); The trajectory is based on the hypothesis of a full exit for each perimeter, and doesn’t take into account potential commitments terminating after the exit dates*
Publication of BNP Paribas’ first TCFD report

- Since 2011, BNP Paribas has been strongly engaged in the fight against climate change and works to align its activity with the objectives set by the Paris Climate Agreement. BNP Paribas has therefore endeavoured for several years to identify, analyse, and manage the climate-related risks and opportunities for the Group and its clients;

- In 2017, BNP Paribas CEO Jean-Laurent Bonnafé publicly supported the release of the final recommendations of the TCFD (Task Force on Climate-related Financial Disclosures), which have been supported and implemented by the Group since then;

- Also, within BNP Paribas, Jane Ambachtsheer (Global Head of Sustainability, BNP Paribas Asset Management) and Mark Lewis (Global Head of Sustainability Research, BNP Paribas Asset Management) are both members of the TCFD;

- On May 18th, 2020, BNP Paribas published its first dedicated and stand-alone TCFD report, which represents an additional step toward leading this alignment with constructive transparency.

ACTIVE CONTRIBUTION TO THE UN SUSTAINABLE DEVELOPMENT GOALS
Pursuing our active contribution to the achievement of the UN Sustainable Development Goals

- **COMMITMENT TO INCREASE THE AMOUNT OF FINANCING TO SUPPORT SECTORS CONSIDERED AS DIRECTLY CONTRIBUTING TO SDGS BY € 10 BILLION PER YEAR IN AVERAGE OVER THE 2019-2021 PERIOD**

- **€180 BILLION AS OF END 2019 TO CONTRIBUTE TO SUPPORTING THE ENERGY TRANSITION & ACHIEVING THE SDGS**

In order to meet this target, we have several action plans on specific SDGs:

- #5 “Gender Equality”
- #10 “Reduced inequalities”
- #13 “Climate action”
- #14 “Life below water”
- #15 “Life on land”
- #17 “Partnerships for the goals”, etc.
SDG #5 – Notable results and actions regarding gender equality

A commitment from the Executive Management

- **Increase of the share of women** in key populations, all the objectives are reached or overcome, with for instance 28% of the SMP at end-2018 (31% target by 2021)
- Jean-Laurent Bonnafé becomes **Thematic Champion** of the **He For She** initiative
- **€ 10 million budget** (spread over 3 years) to address **possible gender differences** in annual compensation for BNPP SA in 2019
- **€ 2 billion** allocated to support women entrepreneurs’ projects
- Paid maternity leave of at least **14 weeks** in all entities of the Group

Training, awareness raising actions and commitments

- Personal development programmes, such as “**Active Inclusion**”, “**#WomengotTalent**” or “**Women in Business**”
- Awareness to the bias, stereotypes, sexism, violence against women: **Respect campaign**, member of the intercompany European network “Cease” with the **signature of the charter “Une femme sur trois”** (one woman in three)

External recognitions

- Presence of the Group in **specific indices related to professional equality topics**, such as the **Bloomberg Financial Services Gender Equality Index (BFGEI)** or the **Pax Ellevate Women’s Index Fund**
- **No.1 French Bank** in Equileap’s gender equality ranking (and 33 organization overall)
- **Scoring 100/100** at the **Corporate Equality Index 2020** published by Human Rights Campaign Foundation for being a business most welcoming to and respectful of the LGBTQ population in the United States
SDG #10 – A leading position in the support to social entrepreneurship

**SOCIAL ENTREPRENEURSHIP**

- Support for more than **2,500 clients and partners** in 7 countries, and **28 MFIs** in 15 countries
- Support of €1.9 billion to social entrepreneurship & microfinance, of which €1.6 billion through loans to social enterprises and MFIs
- As of end-2019, growth of **14%** compared with 2018

**AN INNOVATIVE PRODUCT: THE CONTRATS A IMPACT SOCIAL (CIS) OR SOCIAL IMPACT BONDS (SIB)**

- **Financial tool** through which private investors **finance a social target** and are refunded by public authorities if the target is achieved
- At March 2020, BNP Paribas already launched **7 CIS** in France, **2 SIB** in the United States and **1 SIB** in Belgium, for a **total of €30 million**, in which the Bank has also invested or committed to invest €9 million.
- If the **10 SIBs** met their social impact objectives, then:
  - 1,000 students will have improved their ambition and school completion
  - 600 children will have avoided being placed into foster care
  - 1,000 vulnerable people will have access to stable occupation
- BNP Paribas and the European Investment Fund launched a **€10 million** fund to co-invest in Social Impact Bonds in the European Union – A world première

**STRUCTURES AND LABELS ENABLING SOCIAL INNOVATION**

- Providing social entrepreneurs with a dedicated support
- Accelerating their projects
- Introducing them with key partners
- A 5-year global partnership, with the aim to:
  - Create new social businesses inside the Bank
  - Raise our employees’ awareness on positive impact business
  - Support the Grameen Creative Lab by offering professional legal (pro bono) advice
SDG #13 – Financing proactively the “green” economy

SDG #13 – Aligning portfolios with the Paris Agreement goals

## THE KATOWICE COMMITMENT
- During the **COP24 in Katowice**, BNP Paribas, BBVA, ING, Société Générale and Standard Chartered made a historic commitment: pledging to measure the climate alignment of their lending portfolios, and to explore ways to progressively steer financial flows through their core lending towards the Paris Agreement’s goals.

## ALIGNING THE BANK’S LENDING PORTFOLIOS WITH THE PARIS AGREEMENT GOALS
- BNP Paribas works together with other signatory banks to test and recommend ways to improve the Paris Agreement Capital Transition Assessment (PACTA) methodology developed by the **2 Degrees Investing Initiative**, so as to provide open-source methodologies and tools that can be used by all banks. In 2020 the finalized IP rights free, **open source software** will be released, enabling any bank to carry out the analysis.

- BNP Paribas has been continuously and intensively working on this project for its own activities:
  - As of 2019, the Group uses the PACTA methodology to **calculate its loan book’s profile** at various maturity dates for five high-carbon sectors (extraction of fossil fuels, electricity generation, transport, steel production and cement production).
  - The method, tailored to each sector, employs **benchmark scenarios** used and developed by **independent organizations** such as the International Energy Agency (IEA).
  - The Group is now focusing its efforts not only on improving the percentage and quality of client coverage, but also gaining a **better understanding of projected trends** in each sector.
SDG #17 – New coalitions for the common good

**FOUNDBING MEMBER OF L’ASCENSEUR**, a unique place in Europe, gathering 20 non-profit, private and public committed actors having a common goal: favour the access of young people coming from disadvantaged areas to education, employment, sport & culture. > 30,000 volunteers in the network and > 400,000 beneficiaries of their actions to date.

- **CHARTE SAINT-DENIS ÉGALITÉ** signed with the Conseil Départemental
- **10 YEARS OF ODYSSEE JEUNES**, to encourage academic success

---

**Strengthening our positive impact in disadvantaged areas**

**Supporting solidarity, culture and the environment**

€44.5 M in 2019:
- 21.3% for culture
- 10.5% for environment
- 68.2% for solidarity

400,000 EUROS collected in 2019

- €20 M for Notre-Dame de Paris

**Promotion of a more inclusive economy through coalitions for the common good:**

**BUSINESS FOR INCLUSIVE GROWTH**: a public-private coalition to raise capital in order to reduce inequalities

**COLLECTIF D’ENTREPRISES POUR UNE ÉCONOMIE PLUS INCLUSIVE**: 35 French companies join forces

**ENTREPRISES FOR THE ENVIRONMENT (EPE)**: > 90 CEOs of French and international companies mobilized for a green and inclusive economic recovery

2020 – 2021 ROADMAP
The improvement of ESG data quality at the heart of the “ESG action plan”

“Within 10 to 15 years, extra-financial data and reports will need to be as robust and reliable as financial data” – Jean-Laurent Bonnafé

☞ As a bank, we need to be able to prove that we do what we say with a very high level of reliability

Launch of the ESG Action Plan
⇒ 3 priorities for 2020:

- Secure the ESG setup and deepen ESG analysis
- Start the dynamic management of the balance sheet according to ESG criteria
- Anticipate the evolution of ESG regulatory requirements
Exploratory exercises on climate stress tests

**Bank of England:**
- 2021 biennial exploratory scenario on the financial risks from climate change (‘BES’)
- First to test the vulnerability of today’s balance sheets to climate change, and then to ask firms how they might adapt their business models under the scenario

**ACPR:**
- Announcement of climate stress tests for major French banks and insurances from 2020
- 2/3 adverse climate change scenarios
- Pilot exercise not leading to any capital requirement

**EBA:**
- CRD5 Mandate
- Pilot exercise on a voluntary basis
- Objectives: understanding of banks’ vulnerabilities to climate risk and estimate of brown and green exposures held by banks
- Data collection and mapping with EU Taxonomy
- Not part of the EU-wide stress test, no P2G

BNPP participates to all three initiatives, which are to be articulated and organised in a transversal manner:
- Interactions with the work on taxonomy; classification and the prudential treatment of green versus brown assets
- Group position: test & learn approach, aggregated data by sector/sub sector, transition risk only for banks

**Timeline:**
- **Dec 2019:** BoE Consultation
- **November 2019:** Kick-off at Climate Finance day
- **Dec 2019:** Consultations
- **Feb 2020:** Industry feedback on ACPR scenarios
- **March 2020:** Launch
- **March 2020:** Consultation end
- **Final framework May-Sep 2020:** Data collection
- **Nov 2020:** EU Taxonomy classification
- **Q1 2021:** Results
- **End 2020:** First results on 90 Sis Euro Area
- **To be maintained?**
Biodiversity, a major topic

BNP Paribas’ action to fight against deforestation:
- 4 sector policies related to forest protection
- Member of “Act4Nature”, initiative which gathers scientists, governments, companies and associations
- Group CEO Jean-Laurent Bonnafé is president of “Entreprises pour l’Environnement”
- BNP Paribas AM signatory of the Cerrado Manifesto (2018) that aims to protect the tropical Brazilian savanna and of the Investor Statement on deforestation and forest fires in the Amazon (2019)

Objective 2020: publish a global public position on biodiversity

€1.8 trillion in overall benefits by 2030 in Europe
Hydrogen, an important tool for the fight against climate change

A key element to decarbonize our economy

- Hydrogen is more and more considered as a key tool on the path to low carbon economy. In total, it is 60% of GHG emissions that can be decarbonized by the use of green hydrogen. Some applications are already competitive with conventional options.

Countries and EU supporting actively the development of hydrogen

- Hydrogen is clearly identified as one of the key elements of the European Green Deal, and even more after the Covid-19 crisis. From a draft document, the Commission intends to commit €10billion to the development of hydrogen in the coming decade.
- At country level, many countries have or are building up a dedicated strategy: France, UK, Germany, USA, Japan, South Korea, etc.

BNPP already fully committed to the financing of this technology and sectors

- BNPP is a member of the Hydrogen Council, a group of 80 international companies aiming at developing the hydrogen applications.
- BNPP intends to support the applications of hydrogen by providing the financing for companies and projects. Technical expertise and know-how is being built.

Concrete progress of the Bank:

✓ More than 15 discussions with companies looking for financing, mainly in Europe, for corporates (small start-ups, medium companies) and for dedicated projects
✓ A couple of concrete financing under review in transportation and electricity storage

“"The membership of BNP Paribas in the Hydrogen Council is a natural path for the Group to accompany our clients in the development and the financing of hydrogen, which we believe will be a key element of the energy transition of the next decade.”

Jean-Laurent Bonnafé
BNP Paribas’ CSR strategy recognised by extra-financial agencies

A high and increasing positioning within extra-financial indices

* Methodology change: from 2017, CDP scores are now expressed in the form of letters
