AMENDMENTS TO THE PROGRAMME SUMMARY AND PRO FORMA ISSUE SPECIFIC SUMMARY OF THE PROGRAMME

1. The "Programme Summary" on pages 13 to 33 of the Base Prospectus is amended as follows:
 - (a) Element B.4b is deleted in its entirety and replaced with the following:

B.4b	<p>Trend information</p> <p><i>Macro-economic environment</i></p> <p>Market and macroeconomic conditions affect the Bank's results. The nature of the Bank's business makes it particularly sensitive to market and macroeconomic conditions in Europe, which have been difficult and volatile in recent years.</p> <p>In 2013, the global economy began to move towards equilibrium, with several emerging countries slowing down and a slight recovery in the developed countries. In 2013, global economic conditions remained generally stable as compared to 2012. IMF and OECD economic forecasts¹ for 2014 generally indicate a renewal of moderate growth in developed economies albeit less strong and uniform in the Euro-Zone. Their analysts consider that uncertainties remain regarding the strength of the recovery, particularly in light of the U. S. Federal Reserve's announcement in December 2013 that it would gradually reduce ("taper") its stimulus program, and in the Euro-zone, where a risk of deflation exists.</p> <p>Within the Euro-zone, sovereign credit spreads continued to decrease in 2013 following the decrease recorded in 2012 from the previous historically high levels. The financial condition of certain sovereigns has markedly improved but there remains uncertainty as to the solvency of some others.</p> <p><i>Laws and Regulations applicable to Financial Institutions</i></p> <p>Laws and regulations applicable to financial institutions that have an impact on the Bank have significantly evolved in the wake of the global financial crisis. The measures that have been proposed and/or adopted in recent years include more stringent capital and liquidity requirements (particularly for large global banking groups such as the Bank), taxes on financial transactions, restrictions and taxes on employee compensation, limits on the types of activities that commercial banks can undertake and ring-fencing or even prohibition of certain activities considered as speculative within separate subsidiaries, restrictions on</p>

B.4b	<p>Information sur les tendances</p> <p>Conditions Macroéconomiques</p> <p>L'environnement de marché et macroéconomique a un impact sur les résultats de la Banque. Compte tenu de la nature de son activité, la Banque est particulièrement sensible aux conditions de marché et macroéconomiques en Europe, qui ont été difficiles et volatiles au cours des dernières années.</p> <p>En 2013, l'économie mondiale a commencé son rééquilibrage avec le ralentissement d'un certain nombre de pays émergents, couplé à un léger redressement dans les pays développés. En 2013, les conditions économiques mondiales sont restées généralement stables par rapport à l'année 2012. Les prévisions économiques³ du FMI et de l'OCDE pour l'année 2014 prévoient une reprise modérée de la croissance pour les économies développées, mais plus modeste et hétérogène pour les pays de la zone Euro. Leurs analystes considèrent que des incertitudes demeurent sur la solidité de la reprise, notamment à la lumière de la réduction graduelle (« <i>taper</i> ») annoncée par la Réserve Fédérale des États-Unis en décembre 2013 de son programme de soutien à l'économie américaine, et au sein de la zone Euro, où un risque déflationniste existe.</p> <p>Au sein de la zone Euro, les <i>spreads</i> de crédit des États ont continué à diminuer en 2013 à la suite de la baisse enregistrée en 2012 par rapport à des niveaux précédents historiquement élevés. Certains Etats ont sensiblement amélioré leur situation financière mais une incertitude persiste sur la solvabilité de certains autres.</p> <p>Législation et Réglementations Applicables aux Institutions Financières</p> <p>La législation et les réglementations applicables aux institutions financières qui ont un impact sur la Banque connaissent une évolution significative dans le sillage de la crise financière mondiale. Les mesures qui ont été proposées et/ou adoptées ces dernières années comprennent des exigences plus strictes en matière de capital et de liquidité (notamment pour les grands groupes bancaires tels que la Banque), des taxes sur les transactions financières, des restrictions et des taxes sur la rémunération des salariés, des limitations aux activités des banques de dépôt et la séparation au sein de filiales dédiées, voire l'interdiction, de certaines activités considérées comme spéculatives, des restrictions sur certains</p>
