€90,000,000,000

PROGRAMME FOR THE ISSUANCE OF DEBT INSTRUMENTS

This eighth supplement (the "**Eighth Supplement**") is supplemental to, and should be read in conjunction with, the base prospectus dated 1 June 2012 (the "**Base Prospectus**") and the first supplement to the Base Prospectus dated 22 June 2012 (the "**First Supplement**") and the second supplement to the Base Prospectus dated 7 August 2012 (the "**Second Supplement**") and the third supplement to the Base Prospectus dated 14 September 2012 (the "**Third Supplement**") and the fourth supplement to the Base Prospectus dated 30 October 2012 (the "**Fourth Supplement**") and the fifth supplement to the Base Prospectus dated 22 November 2012 (the "**Fifth Supplement**") and the sixth supplement to the Base Prospectus dated 15 February 2013 (the "**Sixth Supplement**") and the seventh supplement to the Base Prospectus dated 9 April 2013 (the "**Seventh Supplement**") in relation to the €90,000,000,000 programme for the issuance of debt instruments of BNP Paribas and BNP Paribas Arbitrage Issuance B.V. (the "**Programme**"). The Base Prospectus constitutes a base prospectus for the purposes of Article 5.4 of Directive 2003/71/EC as amended by Directive 2010/73/EU (the "**Prospectus Directive**"). The *Autorité des Marchés Financiers* (the "**AMF**") granted visa no. 12-239 on 1 June 2012 in respect of the Base Prospectus, visa no. 12-290 on 22 June 2012 in respect of the First Supplement, visa no. 12-404 on 7 August 2012 in respect of the Second Supplement, visa no. 12-444 on 14 September 2012 in respect of the Third Supplement, visa no. 12-527 on 30 October 2012 in respect of the Fourth Supplement, visa no. 12-569 on 22 November 2012 in respect of the Fifth Supplement, visa no. 13-033 on 15 February 2013 in respect of the Sixth Supplement and visa no. 13-145 on 9 April 2013 in respect of the Seventh Supplement. Application has been made for approval of this Eighth Supplement to the AMF in its capacity as competent authority pursuant to Article 212-2 of its *Règlement Général* which implements the Prospectus Directive in France.

Unless the context otherwise requires, terms defined in the Base Prospectus, the First Supplement, the Second Supplement, the Third Supplement, the Fourth Supplement, the Fifth Supplement, the Sixth Supplement and the Seventh Supplement shall have the same meanings when used in this Eighth Supplement.

To the extent that there is any inconsistency between (i) any statement in this Eighth Supplement, and (ii) any statement in, or incorporated by reference in, the Base Prospectus, the First Supplement, the Second Supplement, the Third Supplement, the Fourth Supplement, the Fifth Supplement, the Sixth Supplement and the Seventh Supplement, the statement referred to in (i) above will prevail.

Copies of this Eighth Supplement may be obtained free of charge at the registered offices of the Issuers and will be available on the website of BNP Paribas (www.invest.bnpparibas.com) and on the website of the AMF (www.amf-france.org).

This Eighth Supplement has been prepared in accordance with Article 16.1 of the Prospectus Directive as amended by Directive 2010/73/EU to the extent that such amendments have been implemented in the relevant Member State of the European Economic Area, and pursuant to Article 212-25 of the AMF's *Règlement Général*, for the purposes of giving information with regard to the Issuer which is additional to the information already contained or incorporated by reference in the Base Prospectus, the First Supplement, the Second Supplement, the Third Supplement, the Fourth Supplement, the Fifth Supplement, the Sixth Supplement and the Seventh Supplement.

This Eighth Supplement has been prepared for the purposes of:

a) incorporating by reference the audited annual Financial Statements of BNP Paribas Arbitrage Issuance B.V. as at and for the year ended 31 December 2012, and the Statutory Auditors' report thereon, (the "**2012 BNPP B.V. Financial Statements**") ; and

b) inserting the following table in the section "Documents incorporated by reference" beginning on page 62 of the Base Prospectus:

Information incorporated by reference	Reference

VERY HIGH SOLVENCY

**COMMON EQUITY TIER 1 RATIO: 11.7%
BASEL 3 FULLY LOADED CET1 RATIO: 10.0%**

The Board of Directors of BNP Paribas met on 2 May 2013. The meeting was chaired by Baudouin Prot and the Board examined the Group's results for the first quarter 2013.

€1.6BN IN NET INCOME ATTRIBUTABLE TO EQUITY HOLDERS IN A CHALLENGING ECONOMIC ENVIRONMENT

In a lacklustre economic environment in Europe, the Group's revenues totalled 10,055 million euros, up 1.7% compared to the first quarter 2012. It included this quarter the positive impact of two exceptional items for a net total of 149 million euros: -215 million euros in own credit adjustment and +364 million euros as a result of the first-time adoption of Debit Value Adjustment (DVA) under IFRS 13. The revenues of the operating divisions dropped 5.9%, although Retail Banking¹ (+0.2%²) and Investment Solutions (+3.4%²) held up well, while this quarter was a transition for CIB after the end of the adaptation plan (-20.2%²).

Operating expenses, which came to 6,514 million euros, improved 4.8%, showing very good cost control. They included this quarter a one-off 155 million euros transformation cost associated with Simple & Efficient. Retail Banking's¹ operating expenses edged down 1.9%², Investment Solutions' inched up 1.5%², while CIB's declined 15.2%².

Gross operating income rose 16.4% during the period to 3,541 million euros. It was down, however, 5.3% for the operating divisions.

The Group's cost of risk, at 978 million euros or 60 basis points of outstanding customer loans, rose only 3.5% compared to the first quarter 2012 and still remained low, illustrating the good control of risks.

Non-operating items totalled 52 million euros this quarter. They were 1,844 million euros in the first quarter of 2012 due to 1,790 million euros in one-off income booked after the Group sold its 28.7% stake in Klépierre SA.

The Group thus posted 2,615 million euros in pre-tax income, down 33.6% compared to the same quarter a year earlier. The pre-tax income of the operating divisions was down only 8.1%.

BNP Paribas thus reported 1,584 million euros in net income (attributable to equity holders), 44.8% lower compared to the first quarter 2012. Exceptional items had no impact this quarter on net income (-6 million euros). Their impact in the first quarter 2012, after factoring in taxes and minority interests, was +829 million euros.

The Group's solvency was very high with a Basel 2.5 common equity Tier 1 (CRD3) ratio at 11.7% and a fully loaded Basel 3 common equity Tier 1 ratio³ at 10.0%, confirming BNP Paribas as one of the world's best capitalised global banks.

Net book value per share⁴ was 61.7 euros, with a compounded annual growth rate of 6.5% since 31 December 2008, demonstrating BNP Paribas' capacity to continue to grow the net book value per share throughout the cycle.

Lastly, Simple & Efficient, the ambitious programme to simplify the Group's way of functioning and improve operating efficiency, got off to a quick start. One hundred and fifty five million euros in

¹ Including 100% of Private Banking in the domestic networks, excluding PEL/CEL effects

² At constant scope and exchange rates

³ Common equity tier 1 ratio taking into account all the CRD4 rules with no transitory provision that will enter into force only on 1st January 2019, and as expected by BNP Paribas

⁴ Not reevaluated

transformation costs were booked this quarter and many projects are in the process of being launched, such as early retirement plans already initiated at BNPP Fortis and BNL, plans to streamline the total number of software programmes and to industrialise computer programme development and plans to go paperless (using electronic documents and archiving).

The Group is set to launch BNP Paribas' European digital bank, a pure mobile and online banking player, as part of its 2014-2016 business development plan.

*
* *

RETAIL BANKING

DOMESTIC MARKETS

Domestic Markets' business activity resulted this quarter in a 6.1% rise in deposits compared to the first quarter 2012, with continued growth trend in all the networks. Outstanding loans were down 1.6% due to the continued slowdown in demand. In the corporate segment, the continued development of Cash Management was reflected in the alignment of the offering in all countries and number 1 positions in France and Belgium and number 3 in Italy. For the individual customer segment, Domestic Markets has rallied support for the impending launch of BNP Paribas' European digital bank, a pure mobile and online banking player, in Belgium, Germany, France and Italy.

Revenues¹, which totalled 3,989 million euros, were down slightly (-0.8%) compared to the first quarter 2012 due to an environment of persistently low interest rates and the deceleration in loan volumes. Given this situation, Domestic Markets is rapidly adjusting its operating expenses¹ which were down 1.4% at 2,433 million euros, thereby improving the cost/income ratio by 0.3 point to 61.0%¹.

Gross operating income¹ thus came to 1,556 million euros, stable compared to the same quarter a year earlier.

Given the rise in the cost of risk in Italy, and after allocating one-third of Private Banking's net income from Domestic Markets to the Investment Solutions division, pre-tax income² was resilient in a challenging environment: it totalled 1,089 million euros, down 5.2% compared to the first quarter 2012.

¹ Including 100% of Private Banking in France (excluding PEL/CEL effects), Italy, Belgium and Luxembourg

² Excluding PEL/CEL effects

**French Retail Banking (FRB)**

The active support of FRB customers was reflected in a good sales and marketing drive in deposits (up 5.6% compared to the first quarter 2012), thanks in particular to strong growth in savings accounts (+8.3%). Outstanding loans decreased by 2.7% due to the continued deceleration in demand for loans. The support of VSEs and SMEs and the success of the "€5bn and 40,000 projects" operation launched in July 2012 translated, though, into a rise in outstanding loans in this customer segment (+2.1%¹). FRB's business activity and innovative capacity are also illustrated by a 33% growth in the number of mobile Internet users, compared to the number as at 31 March 2012, to over 665,000 monthly users.

Revenues² were 1,776 million euros, down 2.0% compared to the first quarter 2012. In an environment of persistently low interest rates and lower loan volumes, net interest income was down 1.6%. Fees were down 2.6% in line with the decrease in the customer business of some retailers and corporates.

Thanks to the continued efficiency improvement, operating expenses² moved down 1.8% compared to the first quarter 2012 and the cost/income ratio was 60.9%².

Gross operating income² thus came to 695 million euros, down 2.4% compared to the same quarter a year earlier.

The cost of risk² was stable compared to the first quarter 2012 and still at a low level, at 22 basis points of outstanding customer loans.

After allocating one-third of French Private Banking's net income to the Investment Solutions division, FRB posted 582 million euros in pre-tax income³, down 2.2% compared to the same quarter a year earlier, a solid performance against a backdrop of a slowdown in the economy.

BNL banca commerciale (BNL bc)

BNL bc's business activity resulted in a 9.6% growth in deposits compared to the first quarter 2012, reflecting a strong overall performance with individuals, corporates and local public entities. Outstanding loans were down on average 2.5% due to a slowdown in demand for loans in line with the market.

Revenues⁴ edged up 0.9% compared to the first quarter 2012 to 823 million euros. Net interest income was down slightly by 0.4% due to lower loan volumes and despite the fact that margins held up well. Fees were up by 3.3% thanks to the good performance of off balance sheet savings and despite a decline in new loan production and the impact of new regulations.

Thanks to cost-cutting measures, in particular with respect to IT and real estate, operating expenses⁴ were 1.6% lower compared to the first quarter 2012 at 438 million euros enabling BNL bc to improve its cost/income⁴ by a further 1.3 point at 53.2%.

Gross operating income⁴ came to 385 million euros, up 3.8% compared to the same quarter a year earlier.

¹ Source: Banque de France (independent VSEs and SMEs), on a sliding annual basis

² Excluding PEL/CEL effects, with 100% of French Private Banking

³ Excluding PEL/CEL effects

⁴ With 100% of Italian Private Banking

The cost of risk¹ rose 35.2% compared to the first quarter 2012 and 4.6% compared to the fourth quarter 2012, coming in at 145 basis points of outstanding customer loans.

BNL bc therefore managed to further improve its operating efficiency but, after allocating one-third of Italian Private Banking's net income to the Investment Solutions division, posted 84 million euros in pre-tax income, down 42.9% compared to the same quarter a year earlier due to the rise in the cost of risk against a backdrop of economic recession in Italy.

Belgian Retail Banking

BRB had an overall good performance this quarter. Deposits rose 4.3% compared to the first quarter of 2012 due to good growth in current accounts and savings accounts. Loans rose by 2.1% during the same period, due in particular to growth in loans to individuals (+3.6%) and the fact that loans to SMEs held up well. Their growth rate was, however, decelerating.

BRB rallied around the "Bank for the future", an ambitious 3-year plan to anticipate changes in consumer behaviour by expanding online banking and adapting the network and the workforce to these changes, enabling to improve the cost/income ratio.

Revenues² were down 0.4% compared to the first quarter 2012 at 838 million euros. Net interest income fell by 1.0%, due to the environment of persistently low interest rates and fees were up 1.9% thanks to the good performance of off balance sheet savings.

Because of the positive impact of the operating efficiency measures, operating expenses² were 1.0% lower than in the first quarter 2012 at 598 million euros, enabling BRB to generate 1.3% more gross operating income². The cost/income ratio² thus improved by 0.4 point compared to the same quarter a year earlier at 71.4%.

The cost of risk² was down 16 million euros compared to the first quarter 2012. At 10 basis points of outstanding customer loans, it was particularly low this quarter. After allocating one-third of Belgian Private Banking's net income to the Investment Solutions division, BRB posted 205 million euros in pre-tax income, up 7.3% compared to the same quarter a year earlier.

Luxembourg Retail Banking: outstanding loans grew by 4.0% this quarter compared to the first quarter 2012, thanks to good growth in loans to corporates and mortgages. There was also strong growth in deposits (+10.8%) due in particular to strong asset inflows, in the corporate client segment. LRB's revenues grew with the volumes and good efforts to control operating expenses significantly increased the cost/income ratio.

Personal Investors: the growth of assets under management was 8.5% compared to the first quarter 2012, due to very good net asset inflows. The good level of new clients also contributed to strong deposit growth, up sharply (+15.9%) at 10.0 billion euros. Revenues, though, were down compared to the same quarter a year earlier due to lower brokerage volumes, but rebounded compared to the previous quarter. The sharp decrease in operating expenses pushed gross operating income up this quarter.

Arval: consolidated outstandings grew by 2.6% this quarter compared to the first quarter 2012 and revenues rose as a result of margins holding up well. With the good control of operating expenses, the cost/income ratio improved compared to the first quarter 2012.

¹ With 100% of Italian Private Banking

² With 100% of Belgian Private Banking

Leasing Solutions: outstandings declined 8.1% compared to the same quarter a year earlier, in line with the adaptation plan regarding the non-core portfolio. The impact on revenues was more limited due to a selective policy in terms of profitability of transactions. The cost/income ratio was stable this quarter due to good cost control.

On the whole, the contribution by these four business units to Domestic Markets' pre-tax income, after allocating one-third of Luxembourg Private Banking's net income to the Investment Solutions division, was up slightly compared to last year, at 218 million euros (+0.9%).

*
* *

Europe-Mediterranean

Europe-Mediterranean enjoyed a strong sales and marketing drive. Deposits grew by 14.5%¹ compared to the first quarter 2012 and were up in most countries, especially in Turkey (+30.4%¹). Loans grew by 6.0%¹, driven in part by good performances in Turkey (+20.4%¹). The sales and marketing drive was also reflected, for example, in the roll-out of multichannel offering in Morocco and Tunisia and by the good growth in cross-selling with CIB and Investment Solutions in Turkey.

At 474 million euros, revenues grew by 15.9%¹ compared to the first quarter 2012, driven in particular by strong revenue growth in Turkey (+36.1%¹).

Operating expenses grew by 3.7%¹ compared to the same quarter a year earlier at 327 million euros. They were up 15.4%¹ in Turkey as a result of the opening of 23 branches during the period. Europe-Mediterranean continued a year-long effort to rightsize various networks with the opening of 23 branches in Morocco but the closure of 41 branches in Ukraine.

The cost of risk, which was 71 million euros, at 115 basis points of outstanding customer loans, was down 19 million euros compared to the first quarter 2012. Europe-Mediterranean thus posted 96 million euros in pre-tax income this quarter, a sharp rebound compared to last year (3.3x¹).

BancWest

BancWest reported good business performance this quarter. Deposits grew by 4.4%¹ compared to the first quarter 2012, driven by growth in deposits in current and savings accounts. Loans grew 3.9%¹ due to a strong growth in corporate loans (+11.8%¹) and to the success of the sales and marketing efforts focussing on SMEs. These good business performances were also reflected in the revving up of the Private Banking expansion, with 5.7 billion dollars of assets under management as at 31 March 2013 and expanded Mobile Banking services which already has 140,000 users.

At 559 million euros, revenues fell, however, by 3.1%¹ compared to the first quarter 2012, given the impact of the decrease in interest rates more than offsetting volume growth and also a lesser contribution of securities sales.

¹ At constant scope and exchange rates

Operating expenses, which were 346 million euros, grew 2.4%¹ compared to the first quarter 2012 as a result of the strengthening of the corporate and small business customers as well as the Private Banking set up.

The cost of risk was still low this quarter and came to 25 basis points of outstanding customer loans (-20 million euros compared to the first quarter 2012).

BancWest thus confirmed its strong profit-generation capacity, generating 190 million euros in pre-tax income, down 2.1%¹ compared to the first quarter 2012.

Personal Finance

Personal Finance's outstanding loans declined 2.4%¹ compared to the first quarter 2012 at 87.5 billion euros. Consumer loan outstandings were down only slightly by 0.1%¹ but mortgage loan outstandings decreased by 5.3%¹ in line with the Basel 3 adaptation plan. Personal Finance continued to develop engines of growth with in particular the success of the joint venture with Commerzbank in Germany (12.7% rise in average outstandings compared to the first quarter 2012). Asset inflows continued to grow with already over 100,000 accounts and 1.2 billion euros in total outstandings, primarily in Germany.

Revenues were down 4.3% compared to the first quarter 2012 at 1,178 million euros due to the reduction of mortgage loan outstandings. Consumer loan revenues were stable as a result of the combined effect of a good drive in Belgium, Turkey and Central Europe and the adverse impact of new regulations in France on margins and volumes.

Operating expenses fell by 15.2% compared to the first quarter 2012 at 547 million euros, thanks to the impact of the adaptation plan. Personal Finance thus significantly increased its operating profitability this quarter with a cost/income ratio down 6.0 points.

The cost of risk was stable compared to the average level in 2012 at 377 million euros or 171 basis points of outstanding customer loans. It was, however, up compared to the level in the first quarter 2012 (327 million euros), in which there were one-off write-backs.

Personal Finance's pre-tax income therefore came to 272 million euros (-3.9% compared to the first quarter 2012).

*
* *

INVESTMENT SOLUTIONS

Investment Solutions grew this quarter its assets under management² by 1.9% compared to 31 December 2012 and 2.9% compared to 31 March 2012 at 906 billion euros. The rise was due primarily to a positive performance effect driven by the rise in the financial markets.

Net asset inflows were 3.1 billion euros this quarter with very good inflows at Wealth Management, especially in Asia and in the domestic markets. Insurance in France, Asia and Latin America also had strong asset inflows, just like Personal Investors, especially in Germany. Asset Management

¹ At constant scope and exchange rates

² Including assets under advisory on behalf of external clients, distributed assets and Personal Investors

had asset outflows, in particular in money market funds, but good asset inflows in emerging markets.

As at 31 March 2013, Investment Solutions' assets under management¹ broke down as follows: Asset Management: 404 billion euros; Wealth Management: 277 billion euros; Insurance: 175 billion euros; Personal Investors: 37 billion euros; Real Estate Services: 13 billion euros.

Investment Solutions' revenues, which totalled 1,563 million euros, were up 2.8% compared to the first quarter 2012. Insurance's revenues were up 13.3% thanks to strong growth in savings and protection insurance, especially in Asia and Latin America. Wealth and Asset Management's revenues were down 0.6% due to Asset Management's lower average outstandings and despite Wealth Management's good growth drive. Securities Services' revenues were down 5.0% due to a persistently low interest rate environment and a decrease in the number of market transactions.

Investment Solutions' operating expenses, at 1,054 million euros, were up only 0.8% compared to the first quarter 2012 with a rise in Insurance due to the growth in business, a 2.5% decline in Wealth and Asset Management due, in particular, to the impact of the adaptation plan in Asset Management and a slight decrease in Securities Services. Investments Solutions' cost/income ratio thus improved 1.4 point at 67.4%.

The division's gross operating income, at 509 million euros, was up 7.2% compared to the same period a year earlier.

After receiving one-third of the net income of Private Banking of the domestic markets, pre-tax income rose 12.7% compared to the first quarter 2012, to 541 million euros, reflecting Investment Solutions' good operating performance.

*
* *

CORPORATE AND INVESTMENT BANKING (CIB)

In a lacklustre environment in Europe this quarter, CIB's revenues totalled 2,461 million euros, down 21.1% compared to the first quarter 2012.

Revenues from Advisory and Capital Markets, at 1,682 million euros, were down 25.2% compared to a high level in the first quarter 2012 (when European markets were boosted by a favourable context due to the effect of the LTRO) and rose 46.3% compared to the last quarter. Business was uneven due to occasional renewed tensions in Europe, but the business unit grew its revenues in Asia. At 32 million euros, VaR was still at a very low level, illustrating a cautious risk policy.

Fixed Income's revenues, at 1,287 million euros, were down 26.8% compared to the first quarter 2012 but increased 55.4% compared to the fourth quarter 2012. Business in rates and credit was down this quarter but forex performed well. The business unit confirmed its strong global position in bond issues where it was number 8 for all international bonds and maintained its number 1 position for all corporate bonds in euros.

Revenues from the Equities and Advisory business unit, at 395 million euros, were down 19.7% compared to the first quarter 2012 but were up 22.7% compared to last quarter 2012 with limited investor transaction volumes and an upswing in the structured products business, more particularly

¹ Including assets under advisory on behalf of external clients, distributed assets and Personal Investors

in Europe and in Asia. The business unit had a strong performance in Equity Linked issues, ranking number 1 bookrunner in Europe by number of deals and number 2 by volume.

Revenues from Corporate Banking were still affected this quarter by the adaptation plan, down 10.7% to 779 million euros compared to the same quarter a year earlier. Excluding the non-recurring impact of sales of loans in the first quarter 2012, revenues declined 17.7% in line with the reduction of average outstandings and outstanding loans totalled 105 billion euros as at 31 March 2013.

The business saw the gradual resumption of loan origination in a context though of weak demand due to a lacklustre environment in Europe. There was a gradual increase of deals in the pipeline: outstandings and revenues started to pick up at the end of the quarter and the business unit strengthened its solid positions in loan origination, ranking number 1 bookrunner in syndicated loans for Europe by volume and number of deals this quarter.

Corporate Banking also grew its deposit base by 14%¹ compared to the first quarter 2012 to 57 billion euros with strong growth in deposits in US dollars. Cash Management continued its business development and gained new significant pan-European mandates.

CIB's operating expenses, which totalled 1,590 million euros, were down 16.4% compared to the first quarter 2012. The decrease in the fixed costs due to the adaptation plan was offset in part by business development investments (Asia, Cash Management). The division's cost/income ratio was 64.6%.

CIB's cost of risk, at 80 million euros, was up slightly compared to the first quarter 2012 (+2.6%). For Corporate Banking, it was 26 basis points of outstanding customer loans, down compared to the last quarter that saw the impact of a specific loan.

CIB thus generated 806 million euros in pre-tax income, down 30.4% compared to the first quarter 2012. The division maintained however pre-tax return on equity at 22.0% with the decrease of its allocated equity (-19.3%) permitted by the decline in outstanding loans and a cautious management of market risks.

*
* *

CORPORATE CENTRE

Corporate Centre revenues were -63 million euros compared to -871 million euros in the first quarter 2012. This includes in particular a -215 million euro own credit adjustment (compared to -843 million euros in the first quarter 2012), the first-time adoption of Debit Value Adjustment (DVA) under IFRS 13 for +364 million euros and the impact of surplus deposits placed with central banks.

Operating expenses totalled 273 million euros compared to 180 million euros in the first quarter 2012 and include 155 million euros in transformation costs as a result of the Simple & Efficient programme. Operating expenses in the first quarter 2012 included only 65 million euros in restructuring costs.

The cost of risk reflects a negligible net write-back (4 million euros). It was -29 million euros in the first quarter 2012, which included the residual impact of the Greek sovereign bond exchange.

¹ Average of outstandings

Share of earnings of associates was -65 million euros due to the one-off impact this quarter of an impairment charge in the accounts of an associated company. This share was 76 million euros in the first quarter 2012 given, in particular, a 40 million euro impact from the Group's sale of its 28.7% stake in Klépierre SA. The main impact of this sale was reflected in other non-operating items in the first quarter 2012 (+1,750 million euros).

The Corporate Centre's pre-tax income was -388 million euros compared to 672 million euros during the same period a year earlier.

*
* *

LIQUIDITY AND FINANCING

The Group's liquidity situation is very favourable.

The Group's cash balance sheet¹ totalled 968 billion euros as at 31 March 2013. The total of equity, client deposits and medium/long-term funding came to a 79 billion euro (of which 57 billion in US dollars) surplus of stable funding compared to the funding needs of customer activity and to tangible and intangible assets. This surplus was 10 billion euros higher than what it was on 31 December 2012. The stable funding thus amounts to 111% of funding needs of customer activity, including tangible and intangible assets.

The Group's liquid and asset reserve immediately available totalled 231 billion euros (compared to 221 billion euros as at 31 December 2012), amounting to 137% of short-term wholesale funding.

The Group's 2013 medium/long-term funding programme is 30 billion euros. By mid-April 2013, 19 billion euros were already raised² with an average maturity of 5.7 years and an average spread of 76 basis points above mid-swap. The Group thus completed close to two-thirds of its medium/long-term funding programme for the year, at competitive conditions.

*
* *

SOLVENCY

The Group has very high solvency.

As at 31 March 2013, the common equity Tier 1 ratio, which includes the European Capital Requirements Directive 3 (CRD3) regulatory regime that came into force at the end of 2011, was 11.7%, down 10 basis points compared to 31 December 2012 mainly driven by three factors: the first quarter's net income after dividend pay-out assumption (+20 basis points), the effect of changes in regulation related to equity investments in insurance companies in anticipation of CRD4 (-20 basis points) and the change in the accounting rule³ on employee benefits (-10 basis points).

¹ Based on the banking prudential scope and after netting amounts for derivatives, repos, securities lending/borrowing and payables/receivables

² Including issues at the end of 2012 on top of the 34 billion euros completed under the 2012 programme

³ IAS 19R

The Basel 3 common equity Tier 1 ratio taking into account all the CRD4¹ rules without transitional arrangements (Basel 3 fully loaded that will come into force only on 1st January 2019) was 10.0% as at 31 March 2013, up 10 basis points compared to 31 December 2012 due to the taking into account of the first quarter's net income after dividend pay-out assumption (+20 basis points) and a change in the accounting rule² on employee benefits (-10 basis points). It illustrates the Group's very high solvency with the new regulations.

Commenting on these results, Chief Executive Officer Jean-Laurent Bonnafé stated:

"In a lacklustre economic environment in Europe, BNP Paribas Group generated 1.6 billion euros in net income this quarter, thanks in particular to good control of costs and risks.

Simple & Efficient, the ambitious programme to simplify the Group's way of functioning and improve operating efficiency, got off to a quick start. The forthcoming launch of BNP Paribas' European digital bank is part of the Group's 2014-2016 business development plan.

BNP Paribas Group is fully dedicated to serving its clients all over the world."

¹ As expected by BNP Paribas, some CRD4 directives remaining subject to interpretation

² IAS 19R

1Q13 – RESULTS BY CORE BUSINESSES	13
QUARTERLY SERIES	14
BALANCE SHEET AS AT 31 MARCH 2013	21

Figures included in this presentation are unaudited. On 18 April 2013, BNP Paribas issued a restatement of its quarterly results for 2012 reflecting, in particular, (i) the amendment to IAS 19 "Employee Benefits" which has the effect of increasing the Group's 2012 pre-tax income by €7m; this adjustment has been re-allocated to the relevant division and business line operating expenses (ii) the allocation between the divisions and business lines of items which had temporarily been allocated to the Corporate Centre. In these restated results, data pertaining to 2012 has been represented as though the transactions had occurred on 1st January 2012. This presentation is based on the restated 2012 quarterly data.

This presentation includes forward-looking statements based on current beliefs and expectations about future events. Forward-looking statements include financial projections and estimates and their underlying assumptions, statements regarding plans, objectives and expectations with respect to future events, operations, products and services, and statements regarding future performance and synergies. Forward-looking statements are not guarantees of future performance and are subject to inherent risks, uncertainties and assumptions about BNP Paribas and its subsidiaries and investments, developments of BNP Paribas and its subsidiaries, banking industry trends, future capital expenditures and acquisitions, changes in economic conditions globally or in BNP Paribas' principal local markets, the competitive market and regulatory factors. Those events are uncertain; their outcome may differ from current expectations which may in turn significantly affect expected results. Actual results may differ materially from those projected or implied in these forward-looking statements. Any forward-looking statement contained in this presentation speaks as of the date of this presentation. BNP Paribas undertakes no obligation to publicly revise or update any forward-looking statements in light of new information or future events.

The information contained in this presentation as it relates to parties other than BNP Paribas or derived from external sources has not been independently verified and no representation or warranty expressed or implied is made as to, and no reliance should be placed on the fairness, accuracy, completeness or correctness of, the information or opinions contained herein. None of BNP Paribas or its representatives shall have any liability whatsoever in negligence or otherwise for any loss however arising from any use of this presentation or its contents or otherwise arising in connection with this presentation or any other information or material discussed.

RESPONSIBILITY STATEMENT

I hereby certify, having taken all reasonable care to ensure that such is the case that, to the best of my knowledge, the information contained in this Eighth Supplement is in accordance with the facts and contains no omission likely to affect its import.

BNP Paribas
16 boulevard des Italiens

Chief Financial Officer
Financial Information

Philippe Regli
in his capacity as
Head of Financial Information

Dated 6 May 2013

In accordance with Articles L. 412-1 and L. 621-8 of the French *Code monétaire et financier* and with the General Regulations (*Règlement général*) of the French *Autorité des marchés financiers* ("AMF"), in particular Articles 211-1 to 216-1, the AMF has granted to this Eighth Supplement the visa n°13-204 on 6 May 2013. This Eighth Supplement has been prepared by BNP Paribas and its signatories assume responsibility for it. This Eighth Supplement, the Seventh Supplement, the Sixth Supplement, the Fifth Supplement, the Fourth Supplement, the Third Supplement, the Second Supplement and the First Supplement and the Base Prospectus may only be used for the purposes of a financial transaction if completed by Final Terms. In accordance with Article L. 621-8-1-I of the French *Code monétaire et financier*, the visa has been granted following an examination by the AMF of "whether the document is complete and comprehensible, and whether the information in it is coherent". It does not imply that the AMF has verified the accounting and financial data set out in it. This visa has been granted subject to the publication of Final Terms in accordance with Article 212-32 of the AMF's General Regulations, setting out the terms of the securities being issued.
